

MODULAR TOOL CONNECTOR

Note: 100k Thermistor is used to monitor the temperature on the laser diode heatsink on AIN

TTL LASER DRIVER

Original credit goes to Crow for his schematic from here (<http://www.repairfaq.org/sam/laserdps.htm#dpslidd317>)
Crow also came up with the modified circuit below to get an enable line and some isolation in, and removing opamp for TTL only to save cost
Crow also agree to license this under the same license Fire Pick Delta uses
